If your order contains a nickname or any unauthorized wording, the nameplate will be cancelled and you will be required to resubmit your nameplate request.

Nameplates will be engraved in all **CAPITAL** letters.

CARE INSTRUCTIONS:

General Maintenance of Polyester & Wool Garments.

- Follow all care instructions indicated on the label sewn into every garment.
- Brush your uniform regularly to remove surface dirt.
- When wet, don't dry uniform in direct sun or near severe heat.
- When not in use, hang your uniform coat and slacks on wooden hangers. Slacks should be hung at full length by the cuffs.
- Avoid carrying pointed, sharp or heavy objects in the pockets.
- Have more than one uniform and alternate wearing. This will substantially extend the life of your uniform.

The Problem of Perspiration:

Perspiration can have a harmful effect on fabrics. It can result in a loss of fabric strength. To prevent this from developing, the following precautions should be taken.

-Dry cleaning solvents do not remove perspiration from a fabric. Affected areas should be called to the attention of your dry cleaner, they will flush them with moisture from a steam spotting gun prior to dry cleaning.

-Although worsted and worsted blend fabrics may not be laundered, a perspiration affected area may be placed over a towel and blotted with a damp sponge. The area should then be blotted vigorously between two dry towels, and set to air dry.

What to do about spots and stains:

The following are simple procedures for removing or reducing common stains from uniform fabrics by using common household items:

Chemicals and materials needed: Rubbing Alcohol - Sponge - Naptha: Blotter Paper - White Vinegar - White Petroleum Jelly - Glycerin - Ammonia - Starch -Detergent -Soft Toothbrush

Type of stain: Solution

Butter, Cooking Oil, Blood: Sponge and flush with Naptha, feather out and dry. Sponge with water, dry; sponge and flush with naptha, feather out and dry.

Coffee, Tea, Ketchup: Sponge with water, and soak stain with glycerin. Flush well with water, feather out and dry.

Glue: Sponge with water, loosen with brush, flush with water, feather out and dry.

Iodine: Sponge with rubbing alcohol against blotter paper, feather out and dry.

Mayonnaise: Apply starch/naptha paste, dry and brush off excess. Sponge and flush with naptha, feather out and dry.

Motor Oil, Tar: Apply starch/naptha paste, dry and brush off excess. Sponge and flush with naptha, feather out and dry.

Mustard: Apply dry starch, brush to remove excess. Apply glycerin for 30 minutes, flush well with water, feather out and dry.

Mud/Rust: Dry and brush off excess, sponge with water. Loosen with brush, flush with water, feather out and dry. Repeat with vinegar if necessary.

Ink, Ballpoint: Rub white petroleum jelly into stain. Then soak in detergent solution and launder.

Tree Sap: Mix a small amount of ammonia with water and gently rub into the spot. After a spot has dried, have garment cleaned.

Grass Stains: Rub detergent or pressure wash directly into stain. Clean promptly.

NOTES: Most chemicals listed above for spot removal are flammable and should be used in a well ventilated area free of any open flame. After treatment, air dry. Never dry in a tumble dryer.

All work should be done with a clean blotter underneath the stain area. Feathering out prevents ringing and is done by starting outside the stain area, and lightly brushing towards its center.

These care procedures are provided only as a service and should not be interpreted as a warranty, implied or otherwise.

Poly/Cotton and Poly/Rayon Permanent Press Garments:

- Machine wash garments in warm water (DO NOT USE BLEACH), tumble dry (on a permanent press setting), remove promptly. Hang up so that wrinkles will fall out. Touch up using a warm iron.
- Follow care instructions shown on every garment.
- For stains, spray a prewash on soiled area and then wash as instructed above.
- Dry clean periodically to sharpen creases.
- Do not use fabric softeners.

CARE OF GORE-TEX ITEMS:

Follow care instructions indicated on the care label sewn in every garment. Machine wash in warm water using a mild soap with no additives (bleach, brighteners, fabric softeners, etc.). Drip dry or tumble dry without heat. For soiled spots use K2R or a similar product. After a few washings, you may need to apply a durable weather repellent to the shell fabric. We recommend a product like Zepel or 3M Scotchguard.

WEAR LIFE:

100% cotton garments have approximately half the wear life of Polyester, and Poly blend garments. 100% Cotton garments are not acid resistant and color loss is accelerated.

ADDITIONAL SIZE INFORMATION:

If additional size information is needed on any garments, please call a HTC-Forest Service Customer Support Specialist at 1-877-482-2260, or refer to any special ordering instructions.

TO RETURN AN ITEM, PLEASE FOLLOW THESE STEPS:

Returns will only be accepted up to 45 days after receipt of item.

Once HT issues RMA, Customer returns are to be shipped back to HT within 45 days. *Note: 45 day return policy is valid for purchases made on or after 4-8-16.* Please try on your new garment to check the fit before laundering. If you are not satisfied, you can return the garment within 45 days and we will credit your allocation. We're sorry but we cannot accept garments for return that have been personally altered, laundered, worn or otherwise made unsalable unless the garment is defective in workmanship or materials.

Prior to returning your garment, you must request a Return Authorization number (RA). **Returns will not be accepted without an RA number.** You can request an RA number either online or by calling our Customer Service department toll-free at 877-HTC-2260 (877-482-2260).

To help us monitor our returns, please be prepared to provide a specific reason for the return (fit, quality, service, etc).

To assist us in the timely processing of your return, please make sure that the Return Form is prepared completely and accurately and is included with the returned garments, along with a copy of your packing list. The RA number must be indicated on the top of the carton along with your name and address. We recommend that your return be shipped via an insured carrier such as UPS or Fed-Ex. If you return your garments through the US Post Office, you should insure the package so it can be traced. Please make certain that the shipping box is packed securely to avoid lost or soiled garments.

Offline:

1. Contact Customer Service: Email - customersvc@htcorp.net, Phone (877) 482-2260, Fax (877) 820-1712. We will email you the RA number and Return Form.

2. Print the form and fill in all required information per the instructions.

3. Package items in such a way to ensure they are not lost or damaged in transit.

4. Please write the RA number on the top of the carton along with your name and address.

Again, please make sure that the Return Form is prepared completely and accurately and is included with the returned garments, along with a copy of your packing list.

All returns should be shipped to the following address:

HTC Distribution Center
Attn: SCFC Returns
2332 Bleecker St
Utica, NY 13501

Upon receipt and authorization of a qualified return, your allocation will be credited and you will be able to access your account to reorder. Please allow 3 business days from receipt of your return for processing.

NOTE: Return Req's can be issued year round, even while the website is shut down.

Measuring Guide

Our belts are measured from the fold over the buckle to the center hole. That distance is the waist size to order.

Our belts have 7 holes for best fit.

HOW TO MEASURE:

Have someone else measure you. Keep the tape straight but not tight. Measure over undergarments or other clothing that will be worn under your uniform. If your measurements fall between two sizes, order the larger size.

FEMALE MEASURING GUIDE AND TIPS:

HEIGHT: Stand against a wall in stocking feet. Mark a point level with the top of your head. Measure from this point down to the floor. (Shoe heels can add inches to your height.) See measurement A.

WAIST: Measure around the smallest part of the natural waistline. Hold tape firmly but not tightly. Keep the tape level and be sure to stand naturally. See measurement C.

HIPS: Measure around the fullest part of the hips. Hold the tape measure firmly, but not tightly. Keep the tape measure straight and level. See measurement D.

INSEAM LENGTH: Lay well-fitting similarly styled pair of slacks with a flat crease at back and front. Lift one leg and measure from crotch to seam to bottom of slacks leg. See measurements M and N.

SLACKS: Slacks are sometimes made in regular, petite and tall. If you believe that you wear a petite or a long, please note on the order form. Please remember that 95% of uniforms are sold in regular sizes.

MALE MEASURING GUIDE AND TIPS:

HEIGHT: Stand against a wall in stocking feet. Mark a point level with the top of the head. Measure from this point down to the floor. See measurement E.

CHEST: Measure around the fullest part of the chest, keeping the tape under the arms and across the shoulder blades. See measurement F.

WAIST: Measure around the waist over the shirt (not slacks) at the position that you wear your slacks. Keep one finger between the tape and your body. Or, measure the waistband of a well fitting pair of similar slacks (zipped and closed). See measurement G.

SLEEVE: Measure from center of neck at back of the collar, over the shoulder, along the arm, behind the elbow, to the wrist bone. (Or take marked sleeve length sizing from a dress shirt that fits you properly). See measurement H and I.

NECK: On a shirt that fits you well, lay the collar flat. Measure the collar from the center of the collar button to the far end of the collar button hole. See measurement J or K. Or, measure comfortably around your neck.

INSEAM LENGTH: Lay well-fitting and similarly styled pair of slacks flat with the crease at the back and front. Lift one leg and measure from the crotch seam to the bottom of the slacks leg. See measurement M and N.

HUMAN
TECHNOLOGIES
The Power of People with Purpose

ABOUT US

Human Technologies is proud to be the provider for the South Carolina Forestry Commision's uniform program.

Human Technologies was founded in 1954 with the mission of " Creating Employment for People with Disabilities".

Human Technologies has been a supplier of uniform apparel products since 1981. HTC presently supplies uniforms for numerous New York State agencies which include the Department of Corrections, Department of Environmental Conservation, Department of Parks and Recreation, Department of Transportation and the NYS Thruway Authority. HTC also manufactures numerous apparel items for the Department of Defense and was named JWOD vendor of the year in 2004 by the Defense Logistics Agency.

Human Technologies is pleased to have been chosen to oversee and manage the Forest Service Uniform Program and we look forward to providing high quality products and customer service to you.

Human Technologies is a private, not-for-profit company governed by a volunteer board of directors. Human Technologies is a 501(c)3 corporation.
